

Billabong Motorhomes

Putting Australian into their Dream Motorhomes

The Billabong Mercedes Benz Sprinter, like our larger conversions, is all style, and again the layout can be built to your specifications. Billabong adopted a tried and trusted set-up – rear sideways-facing lounges, which can be made into two single beds or one very large double bed or can be left as a permanently made up bed, with kitchen on the nearside and bathroom behind the driver's seat. All the cabinetwork is made of plywood with doors and panels finished in a laminate with 2 mm PVC hardwearing edges, which result in a stylish, practical interior. The Mercedes Benz Sprinter comes fully equipped with Fiamma wind out awning, Dometic windows with screens and blinds, fully insulated, a removable dinette table, overhead cupboards, wardrobe, overhead lockers plus many more features. Appliances include a 160-ltr Waeco fridge, SMEV Hot Plate/Sink, SMEV Oven and Rangehood, a swivel toilet and shave cabinet. Other standard features include made to measure curtains, fully upholstered walls, solar panel and a sealed deep cycle battery plus wind up TV antennae – just to name a few. The Sprinter is easy to drive and manoeuvre and is a comfortable size for living in, either for short or extended trips.

Billabong Motorhomes located in Brendale on Brisbane's Northside has been fitting out luxury motorhomes for customers from all over Australia and New Zealand for 11 years and has trade experience in cabinetry expanding more than 33 years.

Billabong Motorhomes has built a strong reputation by providing special and personalised service with the emphasis on high quality, attention to detail with complete customer satisfaction. The company prides itself on quality conversions specializing in larger vehicles.

Using solid timber, timber veneer, coupled with the clever use of laminates and colour ensures that high-class finishes are constantly achieved. Emphasis is always placed on functionality and style to suit the owner's budget. Billabong Motorhomes are also able to assist with the supply, manufacture and installation of soft furnishings from floor coverings to upholstery and custom made curtains/blinds. Our own interior decorator will provide professional advice and recommendations.

We also use top of the range appliances throughout the project including building slide-out barbeques; slide-out generators; external showers and roll-out awnings. We have even installed home theatre projection TV with huge roll down screen.

All motorhome conversions are customised to suit the client's exact tastes and needs. The end products are A class, perfect for Australian conditions and a delightful home away from home.

Billabong Motorhomes provide the high standards that customer's expect and will guarantee you that Your dream motor home will become a reality.
